## PROJECTS (Top 3 Best Projects)

---

### **PlateShare - Community Food Sharing Platform,**

<https://plate-share-a7f54.web.app/> | <https://github.com/shuvostack/plate-share-client.git>

Developed a full-stack platform to reduce food waste connecting donors with people in need. Implemented secure authentication using Firebase and JWT for role-based access (Donor/Receiver). Built a responsive dashboard for managing food requests and status updates in real-time. Tech Stack: React, Node.js, MongoDB, Tailwind CSS, Framer Motion.

### **CityFix - Civic Issue Reporting System,**

<https://city-fix-316cb.web.app/> | <https://github.com/shuvostack/city-fix-client.git>

Engineered a reporting tool allowing citizens to report infrastructure issues with image evidence. Designed a clean UI using React and DaisyUI, ensuring mobile responsiveness for on-the-go reporting. Integrated a backend system to track report status (Pending to Resolved) visible on a public feed. Tech Stack: React, Express.js, MongoDB, Firebase.

### **Hero App, <http://hero-app-766.surge.sh/> | <https://github.com/shuvostack/hero-apps.git>**

Hero App is a comprehensive application marketplace where users can discover, browse, and 'install' various software applications. It features a categorized library (Games, Tools, Productivity), a dynamic search engine, and detailed app pages with ratings and descriptions, simulating a complete app store experience.
